

R1-B1

Compact, fast, and easier to use.

LobsterTools
"You can feel the difference."

The NEW Cordless Riveter at only 1.9kg from Lobster Tools is well balanced & ergonomically designed & powered by an energy efficient 14.4 Volt Li-ion battery.

The spent mandrel catcher has a built in safety feature which prevents the tool from operating until it is properly fitted. The LED spotlight ensures accuracy in all work areas.

A high performance, compact riveter, to improve workshop or production line efficiency.

With energy saving & safety features which could make your workplace "cordless"

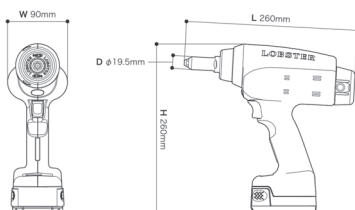

Supplied with energy efficient 14.4V Li-ion battery, made in Japan
