30 August 2013

Dear Customer,

Re: Fastener Price Increase

Bremick Fasteners has been absorbing manufacturing and general cost increases to maintain our pricing in the market.

As a result of continued increases in operating costs and the depreciation of the Australian dollar Bremick has found it necessary to review its product pricing.

A price increase effective on 1st October will take place on the follows products:

- 3% on the Vortex Roof
- 6% on the rest of our screw range
- 7% on Masonry Anchors
- 7% on Threaded Rod
- 7% on Rivets

Kind regards,

Luke Hawksford
Bremick
